

STRATEGY IMPLEMENTATION --REPORT--

Mashauri

Experiential learning

**Our philosophy: you cannot learn to swim in a library,
nor can you learn to be an entrepreneur in a classroom.**

EXECUTIVE SUMMARY

Mashauri

Objective: To provide a structured roadmap for Mashauri's expansion into the South African market.

Stakeholder Analysis

Performed stakeholder analysis.

The Overall Purpose:

- To identify all the key stakeholders involved, directly and indirectly.
- Gaining knowledge about their needs, thoughts, feelings & what they do.

Business Context Analysis

internal & external business analysis.

The Overall Purpose:

- To understand what the business does, determine the value it brings to its stakeholders and how it delivers it.

Partner & Sponsor Analysis

internal & external business analysis.

The Overall Purpose:

- Identify who the current key investors are, and determining whether the company's current financial situation can fully support the expansion.

Performance & GAP Analysis

Mearsured the KPI Performance

The Overall Purpose:

- To assess the current overall performance of the platform, e.g. graduation success stories, learner performance ,uptime and downtime rate.

Strategic Recommendations

Recommendations

The Overall Purpose:

- To provide the correct guidance for the expansion to be a success

TOOLS & TECHNIQUES --USED--

SWOT ANALYSIS

BUSINESS CANVAS MODEL(BCM)

WHY & FISHBONE ANALYSIS TECHNIQUE

STAKEHOLDER MAPPING & PERSONAS

STAKEHOLDER --INSIGHTS--

Mashauri

Stakeholder Empathy Mapping

Academic Institutions, Students
(undergrads & postgrads), Small
Business Entrepreneures.

Says

- Some stakeholders/ learners will start talking about enrolling.
- Others Stakeholders will start raising questions, iabout how effective the program is? Does the platform content really helps business entrepreneurs succeed?

Thinks

- Some stakeholders are from the struggling area, since South Africa is still a struggling country. They might start thinking about power load shedding, no internet connection from rural areas

Feels

- Some stakeholders will feel excited about the new arising opportunities the content might come with.
- Others will feel worried of missing out, because they can not afford to enroll.

Does

- Other stakeholders will start seeking other ways to find funding.
- Others will strat visiting the Mashauri, checking reviews , and booking for free sessions.

LEARNING JOURNEY

--ANALYSIS--

Mashauri

PERFORMANCE & PROCESS GAPS

Mashauri - KPI Performance findings

01

Course Completion Rate (35% Vs 80%)

- Potential issues with course difficulty, engagement, or support systems.

02

Active Participants (32% Vs 80% monthly)

- Potentially low acquisition or insufficient marketing efforts.

03

Mentor Engagement Rate (47% Vs 100%)

- Less personalized support, potentially leading to lower motivation and outcomes.

04

Graduate Success Rate (44% Vs. 90%)

- Only a small fraction of students goes on to validate or launch real ventures.

STRATEGIC --RECOMMENDATIONS--

Mashauri

BRIEF OVERVIEW OF THE BENEFITS OF USING THE RECOMMENDED TOOLS & TECHNIQUES

Higgins' 8S Framework

Following Higgins' 8S framework will help Mashauri align strategy with values, strengthen processes and systems, build talent capacity, and measure sustainable performance, ensuring a smoother and more impactful expansion in South Africa.

SWOT Analysis

Performing a SWOT analysis ensures Mashauri goes into the South African expansion with a clear view of its strengths, weaknesses, opportunities, and threats, helping it leverage advantages, address gaps, seize opportunities, and prepare for risks.

Value Proposition Canvas (VPC) & BCM

Performing the Value Proposition Canvas analysis will help Mashauri understand local needs, tailor services, differentiate from competitors, and engage stakeholders effectively, leading to a more successful expansion across South Africa.

Strategy Implementation & Alignment Techniques & Frameworks

Consultancy Life-Cycle

- **Structured Understanding of Regional Needs-** Mashauri can identify unique challenges and opportunities in the South African entrepreneurial and student landscape.
- **Stakeholder Alignment and Engagement -** The lifecycle process emphasizes continuous engagement with key stakeholders, entrepreneurs, universities, mentors, investors, and regulators. This Builds trust & reduces resistance to change.
- **Sustainable Implementation and Measurement of Success -** The lifecycle includes defining KPIs, benefits realization, and continuous improvement loops.

Fishbone Diagram/ Cause-Effect

Using a fishbone diagram will help Mashauri uncover true root causes, analyze system gaps holistically, engage stakeholders in problem-solving, and make evidence-based decisions for a successful expansion.
